LUMISOURCE VOLUME 21

Dear Retail Partner,

LumiSource has always prided itself in providing our customers with the newest stylish décor at a great value. Now we will also show our customers that we have the most exclusive and original assortment as well.

This catalog will show off the fruits of our product design program, now two years running. We created this program to cultivate talent from the nation's finest design schools. Each designer learned practicality through available resources and manufacturing capabilities as well as constant feedback from customers and seasoned industry veterans.

Through this process, each one of our designers learned how to conceptualize and alter ideas for practicality and how to design for a mass market. They also got a chance to see first hand how a product grows from just a computer rendering to a working prototype and finally into an actual product on a retail shelf.

These new exclusive assortments are denoted with our LumiSource Flame 🔥. At the end of the catalog, you will also see their backgrounds and a sampling of what cool new products that they came up with while here. This has been a fun and fruitful journey for all of us. We look forward to expanding this program and our assortment to you in the years to come.

Be sure to stop by our showrooms to sample this collection of creative and original works of functional art. Of course, they will be affordably priced and well crafted to be enjoyed by your customers too!

Cheers,
Steve Lee, President
