

Welcome to LEC!

Installation

Please follow each step below

- 1. Insert the **Power Translator Premium 14** DVD.**
The installer should launch automatically. If not, open the installer from the DVD.

(If you do not have a DVD drive, you may request a CD or ESD version by sending an email to **support@lec.com**. Include your **access code** in your email.)
- 2. Enter your **access code** (found on the DVD envelope) and press **OK**.**
- 3. Follow the installer's instructions.**

LEC's program icons are installed on your desktop and shortcuts are added to the Start menu.

To install for users without administrator privileges ("limited users"), after installation, launch LogoTrans and translate some text. Then restart your computer. After restarting, limited users may use LEC software. The software will automatically launch whenever the computer is switched on.
- 4. Install **Translate DotNet**.** Included with Power Translator Premium 14 is an initial one-year Universal subscription to Translate DotNet. After this one-year period, you must purchase another subscription to continue using Translate DotNet. You do not need a subscription to use Power Translator programs.

(If you wish to install Translate DotNet at a later date, run the installer, **TranslateDotNetFullInstall.exe**. This installer can be found on the hard drive at **c:\Program Files\Power Translator 14\Installers**).
- 5. Install **Image Processing**.** Open the **InstallImageProcessing** installer from the DVD.
- 6. After the installation is complete, remove the DVD and store it in a safe place.**

The DVD is needed to re-install, change, or repair components of the program.
To move your program to another computer, you must first uninstall it from the original machine. You must be connected to the Internet to uninstall and install on a new computer
- 7. **RESTART** your computer.**
- 8. **Read** LEC's QuickStart (installed on your hard disk) and **View** LEC's flash videos (<http://www.lec.com/ash-demo.asp>) to learn about your LEC programs.**
